## Decorating Step-by-Step

# A Dining Room Sideboard

Want to give your sideboard a stylish new look? Contributing decorating expert Elizabeth Mayhew shows you how it's done.

1

### Start WITH A BLANK CANVAS.

Clear your wall and the top of the sideboard. If you're rearranging your furniture, leave at least 3 feet between your piece and the table.

2

### Hang A MIRROR AND FRAMED PHOTOGRAPHS.

Center the mirror vertically instead of horizontally for a more interesting arrangement. Using similar frames keeps the look cohesive.

3

### Add A LAMP AND ACCESSORIES.

Combining items that range in scale and size helps achieve a balanced but not symmetrical arrangement.

### Give A SOUTHERN TWIST.

For the finishing touch, bring your room to life with an arrangement of magnolia leaves in a footed bowl. \*
